

Research Infrastructure Awards FY09 Award Recipients

Name: Lawrence J. Hirsch, M.D.
Institution: Columbia University
Project: *Critical Care EEG Monitoring Research Consortium*
Award: \$50,000 for one year

This 9-center consortium will investigate continuous EEG monitoring in the critically ill in order to improve clinical outcomes. The consortium will address standardizing EEG interpretation, defining how to identify seizures and other brain events as quickly as possible, and determining which EEG patterns require treatment. The ultimate goal is to improve clinical care of these patients.

* *Second year of funding*
